Yetunde Sola-Adebayo

Houston, TX
832-276-2567
ysolaadebayo@gmail.com

Education

Bachelors in Computer Science
Minor in Mathematics with related coursework in Web Security, Data Structure & Algorithms, and Software Design
University of Houston - Houston, TX
August 2018

Skills

HTML, Cascading Style Sheet (CSS), JavaScript, PHP, Java, Bootstrap, Node.js, Git, Scrum, Microsoft Visual Studio

Projects

Utilizing my knowledge of HTML, CSS, JavaScript, and PHP, I developed a portfolio website to showcase my projects and skills: https://www.yetundesolaadebayo.com

Work Experience

Web Developer
Shoot Technologies - Houston, TX
May 2018 to Present
Building the company website by transforming the design into code using front-end technology such as HTML, CSS, JavaScript. Preparing productivity audits for my department and ensuring seamless integration with Application Programming Interfaces (APIs).

Desk Assistant
University of Houston - Houston, TX
October 2015 to Present
My responsibilities in this role include assisting as many as 30 residents per day in person and by phone, checking out inventory and delivering packages to residents as needed. To ensure accuracy and prompt service, this requires excellent client-focused service skills, attention to detail, and the ability to function independently to ensure expectations are met.

Project Engineering Intern
Chevron Corporation – Lagos, Nigeria
June 2015 to August 2015

In this role, I was also responsible for developing the detailed Project Plans for two major oil and gas projects. During my internship, I developed greater insight into the importance of working independently and as a member of a larger team to achieve mutual project goals.
